## The forex market is the world's largest financial market.

If you have traveled, you probably already have forex trading experience: when you buy the currency of your destination country while paying with your own currency, that is forex trading.

Tenacity is a Dubai Based Forex and Crypto Trading company we work as Forex and crypto traders buy and sell currencies for profit or to protect investments. An estimated USD 5 trillion is traded daily, most of it speculative.

The forex market is the world's largest financial market, and since trading is between market participants, there is no «open» or «close» of market except on weekends.

In other words, forex trading occurs from Sunday 22:00 GMT until Friday 22:00 GMT. You might enjoy trading the major currency pairs, or have knowledge about the strength of an exotic currency, or a feel for commodities; some opportunities present themselves to people who keep up with news and events, while others require patient analysis. Traders bring their own strengths and preferences to their trading and, over time, create their own trading style.
